## Introduction

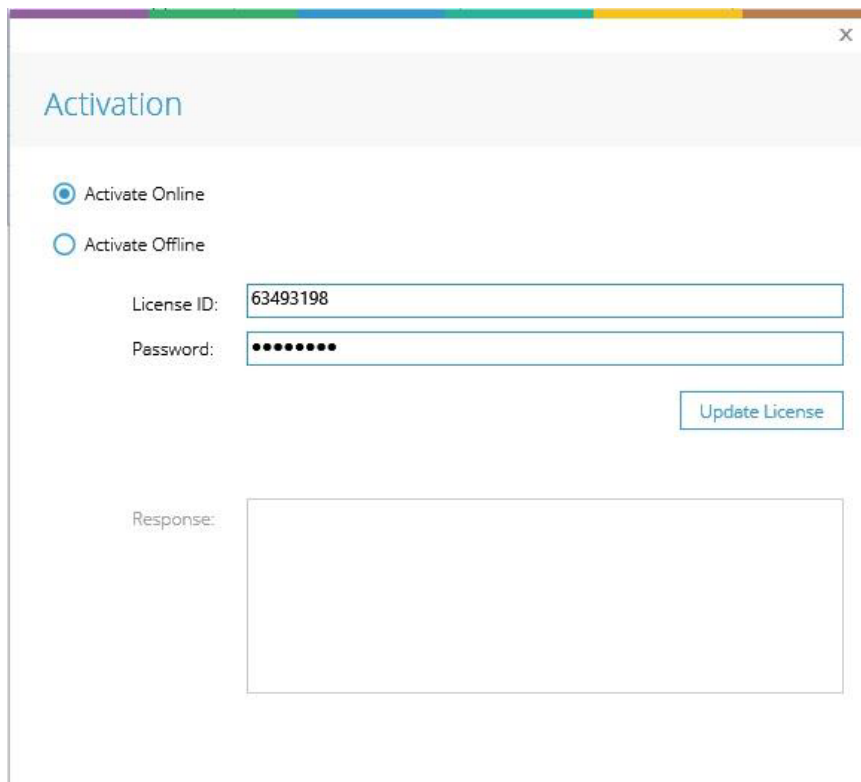

The license activation process has been simplified in the latest version of Lepide Data Security Platform. You will be provided with a License ID and a Password in an email as soon as the Sales Representative from Lepide registers you on the management portal. There are basically two methods of activating your licenses:

- A. Activating Online
- B. Activating Offline

## Activating Online

Once you have the credentials, please follow the below steps:

1. Go to the Licensing information page, click on Update License.
2. Now select "Activate Online" and enter the Licensing ID and Password and hit Update License.

The screenshot shows a window titled "Activation" with a close button (X) in the top right corner. Inside the window, there are two radio button options: "Activate Online" (which is selected) and "Activate Offline". Below these options are two input fields: "License ID:" containing the text "63493198" and "Password:" containing seven black dots. To the right of the password field is a blue button labeled "Update License". Below the input fields is a large empty rectangular box labeled "Response:".

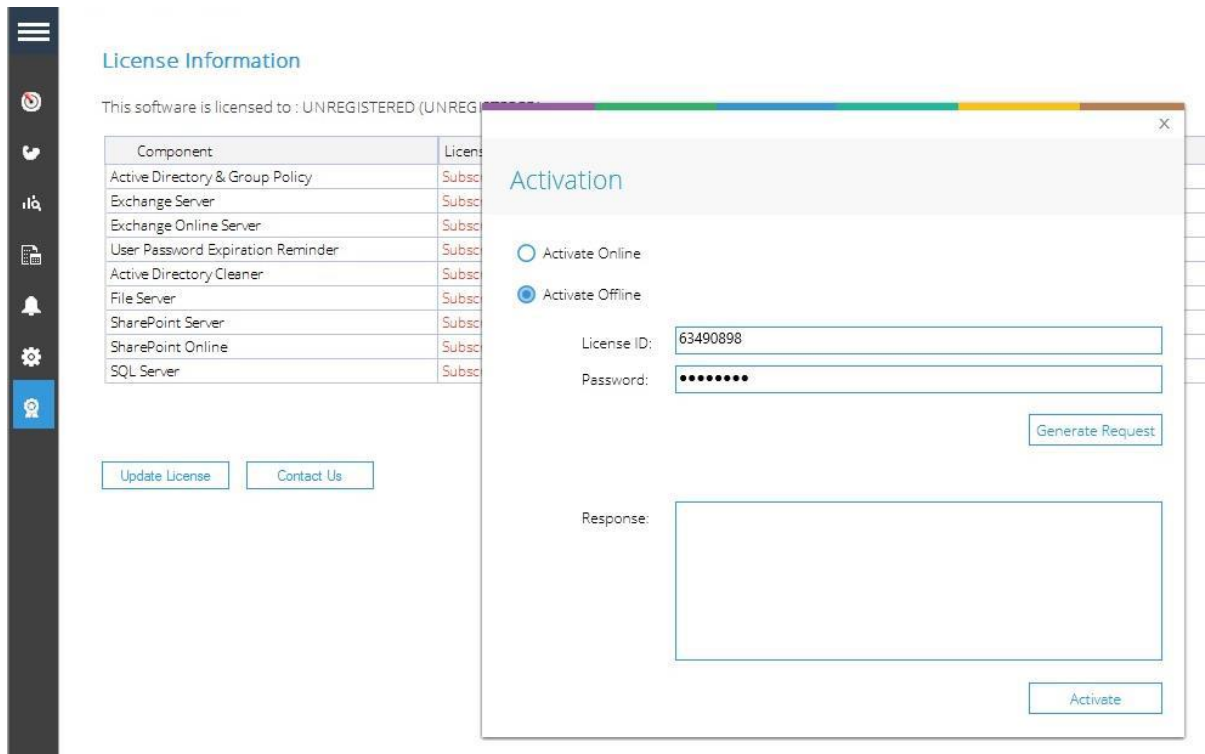

3. Once you click on "Update License" it will show up a pop-up saying, "License information updated successfully". Click OK.

4. Once you click OK, the solution will ask you to restart. Please hit "Yes".
5. Once you restart the software, you will see the column "License Type" is changed to the mode of license you have opted for. This shows your license is active now.

## Activating Offline

This mode is helpful in activating the license when you don't have an active internet connection on the machine where Lepide Data Security Platform is installed.

1. Go to the Licensing information page, click on Update License.
2. Now select "Activate Offline" and enter the Licensing ID and Password and hit "Generate Request".

3. You will get a pop-up saying "License request file generated successfully at: Your Desktop". Just press "OK".
4. Now you have two options, either send the file to [sales@lepide.com](mailto:sales@lepide.com) and wait for the activation file. Or, you can activate the licenses yourself. For that, please open the license request file in a notepad and copy the whole content.
5. Go to a machine which has the internet access and open this url: <https://secure.softwarekey.com/solo/customers/ManualRequest.aspx>

6. You will get the following page:

The screenshot shows a web interface titled "LICENSE PORTAL". Below the title is a breadcrumb trail: "License Portal Home » Manual Request". In the top right corner, there is a "Log In" link with a lock icon. The main heading is "Manual Request", followed by a descriptive paragraph: "This page may be used for processing manual requests, including activation, deactivation, and license refreshing and status checks. Please use the appropriate method of posting the request to retrieve a response." There are two main sections: "Copy and Paste Request" and "Upload Request File". The "Copy and Paste Request" section contains a text area with the placeholder text "Please paste the contents of the request here." and a "Submit" button with a green arrow icon. The "Upload Request File" section contains a "Choose File" button, the text "No file chosen", and a "Submit" button with a green arrow icon.

You have two options now:

- Either paste the content of the license request file into the "Copy and Paste Request" Pane and hit "Submit".
- Or, you can simply upload the file in the "Upload Request File" pane.

7. Once you click on "Submit", you will be re-directed to the following page:

## LICENSE PORTAL

[License Portal Home](#) » [Manual Request](#)
 [Log In](#)

---

### Manual Request

**Response**

To copy the response (so that you may paste it into the application from which the request originated), right-click in the box below and click "Select All." Then right-click in the box again and click "Copy." Alternatively, you may click the "Download" button underneath the box to save the response to a file.

```
<?xml version="1.0" encoding="utf-8"?>
<GetLicenseFile>
  <EncryptedData Id="PrivateData" Type="http://www.w3.org/2001/04/xmlenc#Element"
xmlns="http://www.w3.org/2001/04/xmlenc#">
  <CipherData>

```

[Download](#)

8. Copy the text from the "Response" pane of this page, or you can download this content in a file, which you can transport to the Lepide machine and copy the contents. Now paste these contents in the "Response" pane of the solution and hit "Activate".
9. You will be presented with the screen saying "License Information updated Successfully".
10. Once you click OK, you will be asked to restart the software. Please hit "Yes".
11. Once you restart the software, you will see the column "License Type" has changed to the mode of license you have opted for. This shows your license is active now.
