

Lepide Active Directory Cleaner

Lepide Active Directory Cleaner is a cost effective and simple-to-use solution that allows organisations to keep track of their inactive user accounts. The solution is available either standalone or as a fully integrated component our award winning LepideAuditor Suite.

Active Directory

Instant Visibility

- ✓ Easy-to-use and detailed interface gives you a complete list of your inactive users in your AD which you can organise and sort based on date last logged on, OU or user type
- ✓ Automatically move accounts to another OU, reset their passwords, disable them or if you're feeling really brave, just delete them all together

Detailed Reporting

- ✓ Instantly gain an insight into REAL last logon, users that have never logged on, and more
- ✓ Easily generate reports to be delivered automatically to any email address, or simply export them to CSV, MHT or PDF for further interrogation

Awards
