Datasheet

Lepide Active Directory Cleaner

Lepide AD Cleaner

Lepide Active Directory Cleaner is a cost effective and simple-to-use solution that allows organizations to keep track of their inactive user accounts.

The solution is available either standalone or as a fully integrated component our award-winning Data Security Platform.

Instant Visibility

✓ Easy-to-use and detailed interface gives you a complete list of your inactive users in your AD which you can organize, and sort based on date last logged on, OU or user type.

✓ Automatically move accounts to another OU, reset their passwords, disable them or if you're feeling really brave, just delete them altogether.

Detailed Reporting

✓ Instantly gain an insight into REAL last logon, users that have never logged on, and more

✓ Easily generate reports to be delivered automatically to any email address, or simply export them to CSV, MHT or PDF for further interrogation.
