

Dropbox for Business

As millions of users share business-related content through DropboxBusiness, it is important that you are constantly monitoring any changes that are taking place to files and folders, as well as getting insight into when sensitive data is shared. This is exactly what Lepide Dropbox Auditor enables you to do. Data classification, advanced filters and pre-set reports give you all the tools you need to improve the security of Dropbox.

Classified Dropbox Objects

Drag a column header here to group by that column					
Component Name	File	Folder	Content Type	Count	
Dropbox	Trevor.xlsx	hr department	US Driver's...	1	
Dropbox	Anna.xlsx	hr department	US Driver's...	1	
Dropbox	David.csv	hr department	US Driver's...	1	
Dropbox	Salaries.csv	hr department	National In...	135	
Dropbox	Budget.ppt	hr department	Credit Card...	5	
Dropbox	Pre-notes.docx	hr department	Credit Card...	5	
Dropbox	LetterToCEO.doc	hr department	National In...	10	

Classify sensitive data by compliance.

On-the-fly data discovery and classification enables you to locate and sort your most sensitive data by type, content, risk value and more. Easily prove to compliance auditors that you have visibility over regulated data.

Track changes to files and folders.

With easy to configure reporting in Lepide Dropbox Auditor you can easily ascertain all user activity around the files being shared through Dropbox. With visibility around Files being deleted, added, renamed moved or even copied, you have complete audit trail of how your business users are interacting with your company's data.
